I'm a year 10 student who has lived in Tower Hamlets my whole life. I put myself forward for this role because I feel that many decisions that affect us are not made by us. I would like to change this narrative by offering more opportunities for young people.

I have approached businesses and charities who have agreed to support my pledges if I am elected as Young Mayor.

As we've come out of the lockdown, it's more important than ever that we have a bright future to look forward to.

Vote **Intisar** to make this possible!
