

Secondary Relationships and Sex Education (RSE) Policy

Secondary Relationships and Sex Education (RSE) Policy

1. Aim:

- 1.1 Swanlea School is committed to putting safeguarding at the heart of everything we do and this includes teaching RSE to pupils.
- 1.2 To teach RSE as outlined by the Department of Education and comply with the relevant provisions of the Equality ACT 2010.
- 1.3 To ensure pupils are able to keep themselves safe by teaching factually accurate information.
- 1.4 Children understand the changes to their body as they grow and develop and are supported to behave in a mature and responsible way.

2. Context:

“Today’s children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way.”

(Relationships Education, Relationships and Sex Education (RSE) and Health Education: Statutory guidance for governing bodies, proprietors, head teachers, principals, senior leadership teams, teachers (2019) – Secretary of State Foreword, Pg. 4 - https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/908013/Relationships_Education__Relationships_and_Sex_Education__RSE__and_Health_Education.pdf)

CURRICULUM PROVISION and CONTENT from September 2022

3. Relationships and Sex Education (Statutory)

- 3.1 Families
- 3.2 Respectful Relationships including Friendships
- 3.3 Online and Media
- 3.4 Being Safe
- 3.5 Intimate and Sexual Relationship, including Sexual Health

The DfE Guidance states:

“72. RSE Should provide clear progression from what is taught in primary school in Relationships Education.”

Secondary Relationships and Sex Education (RSE) Policy

(please refer to Appendix 1 for further details)

4. Health Education (Statutory)

- 4.1 Mental Wellbeing
- 4.2 Internet and Safety Harms
- 4.3 Physical Health and Fitness
- 4.4 Healthy Eating
- 4.5 Drugs, Alcohol and Tobacco
- 4.6 Health and Prevention
- 4.7 Basic First Aid
- 4.8 Changing Adolescent Body

(please refer to Appendix 1 for further details)

5. National Curriculum Science (Statutory)

Key Stage 3:

5.1 The Skeletal and Muscular Systems

- the structure and functions of the human skeleton, to include support, protection, movement and making blood cells

5.2 Nutrition and Digestion

- Content of a healthy human diet: carbohydrates, lipids (fats and oils), proteins, vitamins, minerals, dietary fibre and water, and why each is needed
- Calculations of energy requirements in a healthy daily diet
- The consequences of imbalances in the diet, including obesity, starvation and deficiency diseases

Secondary Relationships and Sex Education (RSE) Policy

- The tissues and organs of the human digestive system, including adaptations to function and how the digestive system digests food (enzymes simply as biological catalysts)
- The importance of bacteria in the human digestive system
- Plants making carbohydrates in their leaves by photosynthesis and gaining mineral nutrients and water from the soil via their roots

5.3 Gas Exchange Systems

- The impact of exercise, asthma and smoking on the human gas exchange system

5.4 Reproduction

- Reduction in humans (as an example of a mammal), including the structure and function of the male and female reproductive systems, menstrual cycle (without details of hormones), gametes, fertilisation, gestation and birth, to include the effect of maternal lifestyle on the foetus through the placenta
- production in plants, including flower structure, wind and insect pollination, fertilisation, seed and fruit formation and dispersal, including quantitative investigation of some dispersal mechanisms

5.5 Health

- The effects of recreational drugs (including substance misuse) on behaviour, health and life processes

Key Stage 4:

5.6 Health, disease and the development of medicines

- The relationship between health and disease
- Communicable diseases including sexually transmitted infections in humans (including HIV/AIDs)
- non-communicable diseases
- bacteria, viruses and fungi as pathogens in animals and plants
- body defences against pathogens and the role of the immune system against disease

Secondary Relationships and Sex Education (RSE) Policy

- reducing and preventing the spread of infectious diseases in animals and plants
- the process of discovery and development of new medicines
- the impact of lifestyle factors on the incidence of non-communicable diseases

5.7 Coordination and control

- Hormones in human reproduction, hormonal and non-hormonal methods of contraception

MONITORING, EVALUATION and ASSESMENT

6. Monitoring and Evaluation:

The subjects will be monitored and evaluated. It is important these subjects are consistently monitored to ensure confidence levels of teachers are maintained and the delivery and content is consistent across the school.

The DfE Guidance states:

“123. Schools should have the same high expectations of the quality of pupils’ work in these subjects as for other curriculum areas. A strong curriculum will build on the knowledge pupils have previously acquired, including in other subjects, with regular feedback provided on pupil progress.”

7. Assessment:

The school will identify pupils’ prior knowledge through class-based discussion and assessment tasks.

The school will assess pupils’ learning and progress through a combination of discussion and written tasks, making use of self, peer and teacher assessment

The school will evidence pupils’ learning and progress through work undertaken in books and group presentations as appropriate.

THE RIGHT TO WITHDRAW

8. No Right to Withdraw:

Secondary Relationships and Sex Education (RSE) Policy

There is no parental right to withdraw from the relationship's aspect of Relationships and Sex Education, Health Education or the National Curriculum Science as these are a statutory part of the curriculum.

9 Right to Withdraw:

Parents have the right to withdraw from topics taught outside of these areas and relating to Sex Education.

The DfE Guidance states:

“45. Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory RSE. Before granting any such request it would be good practice for the head teacher to discuss the request with parents and, as appropriate, with the child to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. Schools will want to document this process to ensure a record is kept.”

“47. Once those discussions have taken place, except in exceptional circumstances, the school should respect the parents' request to withdraw the child, up to and until three terms before the child turns 16. After that point, if the child wishes to receive sex education rather than be withdrawn, the school should make arrangements to provide the child with sex education during one of those terms.”

10. Withdrawal Process:

Parents wishing to withdraw their child from the non-statutory elements of Sex Education will need to make an appointment to meet with the Headteacher or the relevant keystone deputy head. Letters will not be accepted as a means of withdrawing a pupil and an individual meeting will need to be held, to discuss parent's concerns.

EQUALITY, SAFEGUARDING and The LAW

11. Equality

Swanlea School is committed to following the Equality Act and to tackling sexism, misogyny, homophobia and gender stereotypes.

12. LGBT and Gender Identity

The DfE Guidance states:

Secondary Relationships and Sex Education (RSE) Policy

“75. Pupils should be taught the facts and the law about sex, sexuality, sexual health and gender identity in an age-appropriate and inclusive way. All pupils should feel that the content is relevant to them and their developing sexuality. Sexual orientation and gender identity should be explored at a timely point and in a clear, sensitive and respectful manner. When teaching about these topics, it must be recognised that young people may be discovering or understanding their sexual orientation or gender identity. There should be an equal opportunity to explore the features of stable and healthy same-sex relationships. This should be integrated appropriately into the RSE programme, rather than addressed separately or in only one lesson.”

13. Menstruation

The DfE Guidance states:

“89. The onset of menstruation can be confusing or even alarming for girls if they are not prepared. Pupils should be taught key facts about the menstrual cycle including what is an average period, range of menstrual products and the implications for emotional and physical health. In addition to curriculum content, schools should also make adequate and sensitive arrangements to help girls prepare for and manage menstruation including with requests for menstrual products. Schools will need to consider the needs of their cohort of pupils in designing this content.”

14. Sexual Exploitation Abuse and FGM

The DfE Guidance states:

“79. Grooming, sexual exploitation and domestic abuse, including coercive and controlling behaviour, should also be addressed sensitively and clearly. Schools should address the physical and emotional damage caused by female genital mutilation (FGM). They should also be taught where to find support and that it is a criminal offence to perform or assist in the performance of FGM or fail to protect a person for whom you are responsible from FGM. As well as addressing this in the context of the law, pupils may also need support to recognise when relationships (including family relationships) are unhealthy or abusive (including the unacceptability of neglect, emotional, sexual and physical abuse and violence, including honour-based violence and forced marriage) and strategies to manage this or access support for oneself or others at risk. Schools should also be mindful that for pupils who are or have experienced unhealthy or unsafe relationships at home or socially, the school may have a particularly important role in being a place of consistency and safety where they can easily speak to trusted adults, report problems and find support.”

15. The Law

The DfE Guidance states:

Secondary Relationships and Sex Education (RSE) Policy

“82. It is important to know what the law says about sex, relationships and young people, as well as broader safeguarding issues. This includes a range of important facts and the rules regarding sharing personal information, pictures, videos and other material using technology. This will help young people to know what is right and wrong in law, but it can also provide a good foundation of knowledge for deeper discussion about all types of relationships. There are also many different legal provisions whose purpose is to protect young people and which ensure young people take responsibility for their actions. Pupils should be made aware of the relevant legal provisions when relevant topics are being taught, including for example:

- marriage
- consent, including the age of consent
- violence against women and girls
- online behaviours including image and information sharing (including ‘sexting’, youth-produced sexual imagery, nudes, etc.)
- pornography
- abortion
- sexuality
- gender identity
- substance misuse
- violence and exploitation by gangs
- extremism/radicalisation
- criminal exploitation (for example, through gang involvement or ‘county lines’ drugs operations)
- hate crime
- female genital mutilation (FGM)”

16. SEND

The delivery of the content will be made accessible to all pupils, including those with SEND.

17. Disclosures

Any disclosures made during the study of RSE will follow Swanlea School’s agreed safeguarding procedures as laid out in the safeguarding policy.

18. Teaching Resources

The school will use a wide range of teaching resources, including ones developed by the Local Authority. All of these resources will be shared with parents during Parent Information Evening / Meetings.

Secondary Relationships and Sex Education (RSE) Policy
